

Consent for DNA analysis

1. Personal details

Surname	Given name(s)
Date of birth	Citizenship

I am an applicant or a reference person in a permit case under Swedish aliens legislation and have been given the opportunity to have a DNA analysis conducted in this case. I am aware that it is the Swedish Migration Agency that determines whether or not an analysis is to be performed.

I have been informed of the purpose of a DNA analysis and consent to the Swedish authorities taking samples or participating in the taking of samples, performing the analysis, consulting with each other and gaining access to the results of the analysis. I also agree to the analysis results being used as a basis for a decision in the permit case.

2. Signature

Place and date	Signature
